

RITBA is accepting applications for the following position:

Technical Tolling Operations Manager
(Full-time Position w/ Employee Benefits Package)

POSITION DESCRIPTION

The Manager of Technical Tolling Operations is responsible for overseeing RITBA's all electronic tolling system, including all back-office system, lane-side (gantry) cameras and software, interoperability with other tolling agencies, and technical operations for the entire Tolling Department.

MINIMUM JOB REQUIREMENTS:

- Bachelor's Degree; Master's Degree preferred
- Five (5) to Ten (10) years' experience in Tolling industry and/or with automated/transactional systems

ESSENTIAL RESPONSIBILITIES:

- Maintain, analyze, report, and troubleshoot all aspects of an all-electronic tolling system, including all back-office system, lane-side (gantry) cameras and software, interoperability with other tolling agencies, adherence to applicable business rules, file specifications, and interface control documents, and all related technical operations
- Liaison to the Interagency Group (IAG) on Executive Management, Policy, Reciprocity Committees, while maintaining effective working relations and communications with the various agencies in the IAG
- Responsible for the operation and documentation of an appropriate system of internal controls
- Responsible for identifying areas of improvements to processes to increase productivity, enhance the customer experience, and reduce costs and risks through operational and technological enhancements
- Provide analysis and reports for auditors, Board of Directors, and Executive Director
- Liaison for the Governor's Office for constituent affairs and maintain a working relationship with all state of Rhode Island agencies and reconcile accounts monthly
- Liaison for the RI Division of Motor Vehicles and RI State Police for toll enforcement
- Tracking and monitoring key performance indicators (KPI's), system issues and updates
- Represent RITBA in many external organizations such as IBTTA, New England Tolling Agencies, and the Eastern Corridor Coalition

- Establish and assure adherence to budget, schedules, work plans, and performance requirements
- Define, implement, and revise operational policies with the department director
- Identify performance improvement opportunities within the tolling department and recommend a strategy to optimize operations
- Manage both internal and external contracts necessary to operate Tolling programs, ensuring all performance quality standards are met
- Participate in the planning and development of back-office system, technical and roadside toll collection equipment/system projects
- Work with finance on the various key performance indicators and controls on toll revenue

REQUIRED KNOWLEDGE, SKILLS AND ABILITIES:

- Knowledge of the Interagency Group
- Broad technical expertise and interoperable transaction/payment industry knowledge
- Excellent Communication skills
- Ability to train, support and motivate staff
